Rabbit anti Galanin (mouse, rat) [UniProt: P47212, P10683]

Galanin is a 39 amino acid neuropeptide produced from the cleavage of the 123 amino acid preprogalanin (encoded by *GAL* gene). It is an inhibitory, hyperpolarizing neuropeptide and as such inhibits neurotransmitter release. Galanin signaling occurs through three G protein-coupled receptors and it is widely expressed in the brain, spinal cord, and gut of humans as well as other mammals. Galanin has been implicated in biological functions such as nociception, waking and sleep regulation, cognition, feeding, regulation of mood, and regulation of blood pressure.

This antibody was generated by immunization of rabbits with Galanin coupled to a carrier protein.

TECHNICAL AND ANALYTICAL CHARACTERISTICS

Lot number:	A19PO24131
Host species:	Rabbit IgG
Quantity:	50µl
Format:	Neat undiluted antiserum, lyophilized, packaged under nitrogen. Reconstitute by adding 50µl distilled water. This will give the equivalent of undiluted antiserum.
Stability:	Original vial: at least one year at 4° - 8°C from date of delivery. Minimize repeated thawing and freezing of the antiserum by freezing aliquots at -20°C or below.
Applications:	This antibody has been tested and validated in ELISA against Galanin and in immunohistochemistry (IHC). Other applications like FACS or Western Blot may work as well. Optimal dilutions should be determined by the end user. Please see www.bma.ch for protocols and general information.
Immunogen:	Synthetic peptide H-Gly-Trp-Thr-Leu-Asn-Ser-Ala-Gly-Tyr-Leu-Leu-Gly-Pro-His-Ala-Val-Gly-Asn-His-Arg-Ser-Phe-Ser-Asp-Lys-Asn-Gly-Leu-Thr-Ser-OH coupled to carrier protein.

Cross-Reactivity:

PEPTIDE:	%:
Galanin (human)	100
Galanin (rat)	100
Galanin (porcine)	100
Galanin (1-16) (porcine, rat)	0
GAMP (1-41) amide	0
Insulin (human)	0
PHM-27 (human)	0
Secretin (human)	0
Substance P	0
VIP (human, bovine, porcine, rat)	0

Typical titration curve of rabbit anti Galanin (mouse, rat) in a competitive ELISA with this antibody:

Related Products: S-1210: ELISA, high sensitivity for extracted samples (hu)
S-1208: ELISA, high sensitivity for extracted samples (ms, rt)
S-1347: ELISA, extraction-free for human serum and plasma samples
T-4325: purified IgG
