Standard Diluent for use with Bovine samples

A high-quality diluent formulated specifically for bovine applications. Prepared from defibrinated, delipidated, and charcoal-stripped porcine serum to ensure reduced background interference and improved assay performance.

Preserved with 0.06% ProClin™ 150 for enhanced stability and protection against microbial contamination.

TECHNICAL AND ANALYTICAL CHARACTERISTICS

Product number:	Y-1067
Host species:	bovine
Quantity:	9 ml
Format:	Ready to use, e.g. in extraction-free ELISA kits for serum or plasma (EIAS type). No dilution required.
Shelf-life:	One year from production date. Store at 4°C.
Applications:	The Standard Diluent-H is used for standard dilutions as well as for dilutions of bovine serum or plasma samples.
