

SAFETY DATA SHEET

Revision Date 9/2/2016

1. PRODUCT AND COMPANY IDENTIFICATION

1.1 Product Identification

Product Name : GLP-1 (7-36) amide (human, bovine, guinea pig, mouse, rat) – Diluted
Antiserum for RIA, Host: Rabbit
Product Code : T-4056.0500
CAS-No. : N/A

1.2 Company Identification

Peninsula Laboratories International, Inc.
305 Old County Road
San Carlos, CA 94070
USA

Telephone : (650) 801-6090
Fax : (650) 595-4071
Emergency : (650) 801-6090 (8:30am-5pm Pacific Time)

1.3 Recommended use and Restrictions on use

Laboratory reagent, Research Use Only

2. HAZARD(S) IDENTIFICATION

2.1 Classification of the mixture

GHS-US Classification in accordance with 29 CFR 1910 (OSHA HCS)

Serious eye damage/eye irritation 2A, H319

2.2 GHS Label elements, including precautionary statements

Hazard Pictogram : 

Signal Word : Warning

Hazard statements : H319 Causes serious eye irritation

Precautionary statements : P264 Wash exposed skin thoroughly after handling.
P280 Wear protective gloves, protective clothing, eye protection, face protection.
P305/P351/P338 If in eyes, Rinse cautiously with water for several minutes.
Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313 If eye irritation persists, get medical advice/attention.

2.3 Hazards not otherwise classified (HNOC) or not covered by GHS

Sodium azide may react with lead and copper plumbing to form highly explosive metal azides. Rapidly absorbed through skin.

Peninsula Laboratories International, Inc.

3. COMPOSITION/INFORMATION ON INGREDIENTS

3.1 **Substance** : Not applicable

3.2 **Mixture** :

| PRINCIPLE COMPONENTS | CONCENTRATION | CAS No | GHS-US CLASSIFICATION |
|--|------------------|------------|---|
| Sodium Phosphate dibasic anhydrous | 31% w/w powder | 7558-79-4 | Serious eye damage/eye irritation 2B H320 |
| Sodium Chloride | 7.8% w/w powder | 7647-14-5 | Serious eye damage/eye irritation 2A H319 |
| Sodium Azide, NaN ₃ | 0.3% w/w powder | 26628-22-8 | Acute Tox Oral 2, Acute Tox Dermal 1; STOT RE Brain 2; Aquatic Acute 1; Aquatic Chron 1; H300, H310, H373, H400, H410 |
| Bovine Serum Albumin | 53.8% w/w powder | 9048-46-8 | Not classified |
| Sodium Phosphate monobasic monohydrate | 7.1% w/w powder | 10049-21-5 | Not classified |

4. FIRST-AID MEASURES

4.1 Description of First Aid Measures

General advice: Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

Inhalation: Supply fresh air breathing. Allow the victim to rest. Remove to fresh air and keep at rest in position comfortable for breathing. Immediately call a poison center or physician.

Ingestion: Rinse mouth. Do not induce vomiting. If vomiting occurs take measures to ensure no material is aspirated into respiratory tract. Immediately call a poison center or physician.

In case of skin contact: Immediately remove all contaminated clothing. Wash off with soap and plenty of water. Take victim immediately to hospital. Immediately call a poison center or physician.

In case of eye contact: Rinse cautiously for several minutes under running water. Immediately call a poison center or physician.

4.2 Important Symptoms/Effects, acute and delayed

Causes severe skin burns and eye damage. Some symptoms may be delayed. Please see Section 2 hazard statements.

4.3 Required treatment

Obtain medical assistance.

5. FIRE-FIGHTING MEASURES

5.1 Extinguishing agents

Suitable extinguishing agents: Dry powder.

5.2 Special hazards arising from the substance or mixture

No data available.

Peninsula Laboratories International, Inc.

5.3 Advice for firefighters

Protective equipment and precautions: Wear self-contained breathing apparatus for firefighting. Use standard protective equipment including flame retardant coat, helmet with face shield, gloves, and rubber boots. Move containers from fire area if you can do so without risk. Use water spray to keep fire-exposed containers cool. Cool containers exposed to flames with water until well after the fire is out.

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

6.1.1 For non-emergency personnel

Personal precautions, protective equipment, emergency procedures: Wear respiratory protection, safety glasses, gloves, protective clothing including a full length lab coat (see section 8). Avoid dust formation. Avoid breathing dust, vapors, mist, or gas. Ensure adequate ventilation. Evacuate unnecessary personnel, upwind of spill/release.

6.1.2 For emergency responders

Personal precautions, protective equipment, emergency procedures: Equip cleanup crew with proper protection, including: respirator, chemical safety goggles, rubber boots, rubber gloves. Ventilate area, mechanical exhaust. Avoid contact and inhalation. Do not get in eyes, on skin, on clothing. Wash thoroughly after handling.

6.2 Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.

6.3 Methods and material for containment and cleanup

Pick up and arrange disposal without creating dust. Sweep up and shovel. Do not flush with water. Blot spills with inert solids, such as sand, clay, diatomaceous earth, acid binders, universal binders, or sawdust as soon as possible. Collect spillage and absorbent material and place in closed container, store away from other materials, for proper disposal. Wash spill site thoroughly and discard contaminated cleanup items in closed container for proper disposal.

6.4 Disposal

Discard in accordance with local regulation.

6.5 References to other sections

See Section 8 Exposure Controls and personal protection.

7. HANDLING AND STORAGE

7.1 Precautions for safe handling and hygiene

Avoid contact is skin and eyes. Avoid formation of dust and aerosols. Provide ventilation in work area to prevent vapor buildup. Do not breathe dust, mist, vapors, spray. Wash hands and other exposed skin with mild soap and water before eating, drinking, or smoking and when leaving work. Wash contaminated clothing before reusing.

7.2 Conditions for safe storage, and incompatibilities

Keep container closed when not in use. Store at -20C. Do not store near acids. Avoid sources of ignition. Comply with applicable regulations.

7.3 Specific end use(s)

Peninsula Laboratories International, Inc.

Apart from uses listed in Section 1.3, no other specific uses are stipulated.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control Parameters

| Component | CAS-No. | Value | Control parameters | Basis |
|--------------|------------|---|--------------------|---|
| Sodium azide | 26628-22-8 | C | 0.100000 ppm | USA. NIOSH recommended exposure limits |
| | Remarks | Potential for dermal absorption | | |
| | | C | 0.300000 mg/m3 | USA. NIOSH recommended exposure limits |
| | | Potential for dermal absorption | | |
| | | C | 0.110000ppm | USA. ACGIH Threshold Limit Values |
| | | Lung damage, cardiac impairment, not classifiable as human carcinogen | | |
| | | C | 0.290000 mg/m3 | USA. ACGIH Threshold Limit Values |
| | | Lung damage, cardiac impairment, not classifiable as human carcinogen | | |
| | | C | 0.1 ppm | USA. OSHA – Table Z-1 Limits for Air Contaminants - 1910.1000 |
| | | Skin notation | | |
| | | C | 0.3mg/m3 | USA. OSHA – Table Z-1 Limits for Air Contaminants - 1910.1000 |
| | | Skin notation | | |

8.2 Exposure Controls

Appropriate engineering controls : Avoid contact with skin, eyes, and clothing. General industrial hygiene practice. Emergency eye wash fountains or eye wash bottles and safety showers should be available in the immediate vicinity of any potential exposure. Fume hood.

Personal protective equipment : Avoid all unnecessary exposure by using the following equipment:

Hand protection : Wear protective gloves, that are impermeable and resistant to acids.

Eye/face protection : Chemical goggles or face shield.

Peninsula Laboratories International, Inc.

Skin and body protection : Wear suitable protective clothing, such as a laboratory coat. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection : Wear appropriate mask.

Other information : Do not eat, drink, or smoke during use.

Control of environmental exposure : Prevent leakage and spillage if safe to do so.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

| | |
|--------------------------------------|---------------------|
| Physical state | : powder, white |
| Odor | : No data available |
| Odor threshold | : No data available |
| pH | : No data available |
| Relative evaporation rate | : No data available |
| Melting point | : No data available |
| Freezing point | : No data available |
| Boiling point | : No data available |
| Flash point | : No data available |
| Self-ignition temperature | : No data available |
| Decomposition temperature | : No data available |
| Flammability (solid, gas) | : No data available |
| Vapor Pressure | : No data available |
| Relative vapor density at 20C | : No data available |
| Relative density | : No data available |
| Density | : No data available |
| Solubility | : Soluble in water |
| Log Pow | : No data available |
| Log Kow | : No data available |
| Viscosity, kinematic | : No data available |
| Viscosity, dynamic | : No data available |
| Explosive properties | : No data available |
| Oxidizing properties | : No data available |
| Explosive limits | : No data available |

10. STABILITY AND REACTIVITY

10.1 Reactivity

Peninsula Laboratories International, Inc.

No data available

10.2 Chemical stability

Stable under recommended storage conditions.

10.3 Possibility of hazardous reactions

No data available

10.4 Conditions to avoid

Avoid mixtures/contact with incompatible materials (section 10.5). Direct sunlight. Extremely high or low temperatures.

10.5 Incompatible materials

Acids, metals, halogenated hydrocarbon, acid chlorides, hydrazine, dimethyl sulfate, inorganic acid chlorides, strong oxidizing agents.

10.6 Hazardous decomposition products

Hazardous decomposition products formed under fire conditions- sodium oxides.
Carbon monoxide. Carbon dioxide.
In the event of fire, see section 5.

11. TOXICOLOGICAL INFORMATION

11.1 Information on likely routes of exposure

| | |
|---------------------|---|
| Ingestion | : May cause irritation of the gastrointestinal tract. |
| Inhalation | : Dust may irritate respiratory system or lungs. |
| Skin contact | : Causes mild skin irritation. |
| Eye contact | : Causes eye irritation. |

11.2 Information on toxicological effects

Bovine Serum Albumin No data available

Sodium azide

Acute Toxicity

Oral LD50 oral rat: 27 mg/kg

Inhalation: no data available

Dermal: No data available

Repeated dose toxicity: No data available

| | |
|--|--------------------------|
| Skin corrosion | : Not classified |
| Serious eye damage/irritation | : May irritate eyes. |
| Respiratory or skin sensitization | : Not a skin sensitizer. |
| Germ cell mutagenicity | : Not classified |
| Carcinogenicity | : Not classified. |
| Reproductive toxicity | : Not classified. |

Peninsula Laboratories International, Inc.

Specific target organ toxicity (single exposure):

No data available.

Specific target organ toxicity (repeated exposure):

Sodium Azide : Brain

Aspiration hazard : No data available.

Additional information

Sodium Azide Repeated dose Rat – male and female – Oral – LOAEL : 5mg/kg

RTECS: #VY8050000

Nausea, headache, vomiting, laboratory experiments in animals have shown sodium azide to produce a profound hypotensive effect, demyelination of myelinated nerve fibers in the central nervous system, testicular damage, blindness, attacks of rigidity, and hepatic and cerebral effects.

To the best of our knowledge, the chemical, physical and toxicological properties have not been thoroughly investigated.

The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. It is the users' responsibility to determine the suitability of this information for the adoption of safety precautions as may be necessary. Peninsula Laboratories International, Inc. shall not be held liable for any damage resulting from the handling of the above product.
