### Rabbit anti Urotensin II (human) [UniProt: 095399]

Urotensin-II is a 11-amino acid peptide ligand, agonist for the urotensin-II receptor which is a G protein-coupled receptor that primarily activates the alpha subunit Gαq11. It is the strongest known vasoconstrictor. Because of the involvement of the UII system in multiple biological systems such as the cardiovascular, nervous, endocrine, and renal, it represents a promising target for the development of new drugs.

This antibody was generated by immunization of rabbits with Urotensin-II coupled to a carrier protein.

### TECHNICAL AND ANALYTICAL CHARACTERISTICS

<b>Lot number:</b>	A14476
<b>Host species:</b>	Rabbit IgG
<b>Quantity:</b>	50µl
<b>Format:</b>	Neat undiluted antiserum, lyophilized, packaged under nitrogen. Reconstitute by adding 50µl distilled water. This will give the equivalent of undiluted antiserum.
<b>Stability:</b>	Original vial: at least one year at 4° - 8°C from date of delivery. Minimize repeated thawing and freezing of the antiserum by freezing aliquots at -20°C or below.
<b>Applications:</b>	This antibody has been tested and validated in ELISA against Urotensin-II. Other applications like immunohistochemistry (IHC), FACS or Western Blot may work as well. Optimal dilutions should be determined by the end user. Please see <a href="http://www.bma.ch">www.bma.ch</a> for protocols and general information.
<b>Immunogen:</b>	Synthetic peptide H-Glu-Thr-Pro-Asp-Cys-Phe-Trp-Lys-Tyr-Cys-Val-OH, (Disulfide bond) coupled to carrier protein.

Typical titration curve of Urotensin-II in a competitive ELISA with this antibody:

Related Products:

- T-4736: Rabbit anti Urotensin II (hu), diluted antiserum
- T-4737: Rabbit anti Urotensin II (hu), purified IgG
- T-4798: Rabbit anti Urotensin II-Related Peptide, neat antiserum
- T-4797: Rabbit anti Urotensin II-Related Peptide, purified IgG
- S-1256: ELISA, high sensitivity for extracted samples
